

Aug. 26, 1987

Dear Joel and Michael,
on Monday, Aug. 24, an important Event happened:
4-pages Electronic mail from an American to a Soviet
proved that it is possible to share the same
Vision co-created via human-to-human communication.
As I have written to Henry Dinkin, such a 4-pages pro-
posal can not be supported or signed by any
local organizations to American partner. In your
country there is a possibility for a human
being (while Vision is in place) to form a
public structure and to find looking for its
actualization. (In this country it is getting
easier to talk about individual labour
activity but only on the level of primitive
production of goods). But I discovered that
it is already possible to co-create a Global
Vision by networking inside our system (when
Vision arrived from Outside this system!).

I invited Henry to support my idea to publish
a book (started from 4-pages E-mailed
Vision to Event accomplishment). Follow-
networkers will be starring throughout this
book. And the last pages will be about
next Global Vision (Siber New Year Party
is a natural candidate). Thus, readers will
be invited to develop further this next Global
Project, and to conclude a new Book by the
next Global proposal and further and further,
until the whole Library will be created
by the end of the Century. This book will
show real people in real efforts to create
Global Cooperation. So, many eye-wash bullshit
aired by super-ego will loose its influence on us.

Dear friends, you both are responsible now
to understand what I try to express. This is more
important than you can imagine. It is not
Space-Bridge, it is efforts to create it -
a heart of this Vision.

Few hours ago I met a friend, Oleg
Smirnov, who worked with John Denver
Billy Joel (as an interpreter on stage).
He works with PepsiCo here and Mr. Kendall
will be here during your convention.

I invited them to send fly to you to inform
about their interests. Oleg can help me
a lot with Olympic Stadium Preparations.

If there is no special objections, please
receive and support PepsiCo involvement.
And many other words I can add, but
I hope you already got my message.

Thank you for all.
yours ever

Joseph Goldin
